EVENT NOTIFICATION CONTACT INFORMATION (Please list at least three persons)		
Names of Persons to be notified	Cell Phone Number	Email

FACILITIES INFORMATION (Please attach a list if space is not sufficient)		
PSO Account No.	Facility Street Address	Facility Name (if any)

ENROLLMENT TERMS

- 1. Enrollment** shall be in effect from date of submission through April 30, 2019.
- 2. Program Implementation** The PSO Peak Performers Program will run from the 1st day of June through the 30th day of September of each year.

One (1) Curtailment Test shall be required before the 2nd Friday of June. The Curtailment Test will be for one hour and at the convenience of the participant.

PSO will solely determine when to call a Peak Event for demand load reduction. All peak events shall be implemented at the time and for the duration specified by PSO.

PSO will notify participating customers by text message or email at least two (2) hours prior to the required start-time of any Peak Event.

A Peak Event shall be for a minimum duration of two hours and shall not exceed a daily maximum of four hours and shall be limited between the thirteenth and nineteenth hours of the day. There shall be no more than four (4) Peak Events during any one calendar month of the Program period. There will be no more than three (3) Peak Events during any one calendar week of the Program Period. The total of all Peak Events shall not exceed forty-eight (48) hours in Program Period.

- 3. Verification Process** The data that will be used to calculate Baseline Peak Demand, Peak Load Reduction, and Average Kilowatt Savings will be collected from PSO meters with internal data recorders.

PSO shall calculate customer baseline Peak Demand based on the average of three (3) highest usage day of the previous ten (10) calendar days, excluding holidays, weekend days, or prior Peak Event days during like hours of the Peak Event.

If conditions on a Peak Event are such that the customer has to operate at higher than Baseline Peak Demand, an adjustment factor of up to thirty percent (30%) based on the morning of the Peak Event usage shall be applied to the Baseline Peak Demand.

Peak Load Reduction is the difference between the Baseline Peak Demand and the actual kilowatt demand during a Peak Event. The average of the total Peak Load Reduction during the entire Program Period will be the Average Kilowatt Savings.

- 4. Incentive Payments** A one-time incentive payment will be paid by PSO to the enrolled customer in the form of a check after the close of the current peak season. Payments will be calculated based upon the demonstrated Average Kilowatt Savings at \$32/kW.

A bonus equal to 5% of the customer's incentive payment will also be paid to any customer who participated in all Peak Events. Any demonstrated Peak Load Reduction during a Peak Event shall be deemed as participation in said Peak Event.

If for any reason PSO does not call a Peak Event, the incentive payment shall be based on the demonstrated Peak Load Reduction during the one (1) hour Curtailment Test.

- 5. Penalties** There are no penalties to Customer for non-participation during any Peak Event.

- 6. Evaluation, Measurement & Verification Process** By enrolling in the Peak Performers Program, Customer also agrees to participate in good faith in any evaluation, measurement, and verification activities, including but not limited to, surveys and on-site visits.

MARKETING RELEASE

- By checking this box, I hereby grant Public Service Co. of Oklahoma (PSO) the unqualified and unconditional right and permission to use audio and video/film/still photo productions, program participation information and/or quotes of me and/or my organization for any purpose relating to Peak Performers Program in any published form and in any media in any part of the world at any time during the next five (5) years. I also assign and transfer to PSO, its successors and assigns, all my rights, title and interests in and to all audio and video/film/still photos/project information and/or quotes made or taken as related to participation in Peak Performers Program.

CUSTOMER ACCEPTANCE OF TERMS

By signing below, I certify that: (1) the information contained in this enrollment form is accurate and complete to the best of my knowledge; and (2) I have read and understood the terms of enrollment in Peak Performers Program.
